

# BECOME more serene

Getting that little bit higher, feeling more like a cherished guest than a customer, sharing a unique experience relative to the mountains and those around you: that is Arc 1950's promise to you. A promise it has been keeping for over 12 years.

2. A 5\* village

## WHAT YOU NEED TO KNOW

Arc 1950 le Village proposes the unique concept of a complete resort village in the heart of the stunning surroundings of the vast Paradiski area.

## BE UNIQUE IN A UNIQUE PLACE!

Arc 1950 was developed around the concept of offering its guests a traditional village life thanks to its perfect neo-retro architectural coherence, the little squares and shimmering facades, the spacious high-end apartments, the discreet services and fully «ski-in/ski-out» experience with no cars to disturb you. More than a ski resort, it is a real cocoon of comfort and pleasure where everyone can create their own role.

Skiing around Paradiski, the world's second largest ski area, is a key element of course, as is being able to recharge your batteries in a refined atmosphere and enjoying spending time with friends and family at the pool or the spa, or over a drink. Children share the special ambiance, discovering the magical places and activities of a village that was made for them: animated, fun... and quite safe.

Visitors will be hard pressed to find any other place where they feel more like a cherished guest than a client. This is the Arc 1950 le Village experience, here and now.

## YOUR MOUNTAIN TOP COCOON

The 5\* residences in Arc 1950 le Village represent the Pierre & Vacances Premium and Radisson Blu labels. They guarantee that the same high level of service is available throughout, from the comfort of the accommodation to the amenities offered. Even the retailers and restaurant owners, through their charter of commitment and their involvement in the entertainment programme, contribute to the harmonious atmosphere in the village.

The resort's 700 apartments all share the same welcoming charm, but each has its own character. You will appreciate the views of the Mont Blanc massif from the balconies and terraces as much as the details such as having your beds made up on arrival, soft bathrobes or free Wifi... Lazing in front of the fire, going out for a drink or enjoying a massage in the Deep Nature spa with its range of Cinq Mondes products, are all precious moments that add to the aura of luxury surrounding your stay.
