

KEEP the holiday atmosphere going into the night

Live a vibrant experience
at any time...

When the sun goes
down turning the snowy
peaks red, there is a
different atmosphere all
along the animated main
street.

WHAT YOU NEED TO KNOW

When you stay in Arc 1950 le Village, you feel like you have been invited into a warm atmosphere where all the focus is on you. When night falls, you will feel even more drawn to the festive places.

A CHARMING VILLAGE: WORDS WITH REAL MEANING

Arc 1950 is much more than just a resort; it is a village with its own life, character and style. Its unique charm comes from the fact that everyone is striving to make the village guests the centre of attention. Wander around the village and you will see: a terrace where you can stop for a snack, a cosy-looking room, a welcoming smile, a special attention, a fire in the fireplace... Details that are appreciated by an exclusive clientele with high expectations. Enjoying a drink together and just letting time go by, that is the daily luxury that will make you want to keep coming back to the Village. Nothing will intrude upon the calm you find there. You will feel at home everywhere.

HOT NIGHTS! (ONLY THE SNOW WON'T BE MELTING)

Every residence has its own restaurant, bar and special atmosphere. You don't even have to go outside to go out at night, although you may want to venture into the streets to find the place and style for your perfect evening.

We have an Irish bar (Belles Pintes) and a steak house (Hemingway's), an Italian mountain restaurant (Chez Luigi) and a Savoyard one (Le Perce Neige), a brasserie (Le 1950) and a wine bar (George's Wine Bar), as well as a number of other choices: après-ski in the Village is almost like travelling around the world.

You may want to go on to a club or a concert: maybe to O'Chaud which combines the ambiance of a bar with the excitement of a club, or off to the yurts or the Igloo village (on snowshoes or a skidoo) to prolong the unusual experience of an exceptional winter's night.

KEEP

the holiday
atmosphere
going into the night

NEW FOR WINTER 2018

At the end of the afternoon, the atmosphere will be festive: jazz, rockabilly, pop rock... Arc 1950 le Village's pubs and streets will become the perfect spot for concerts to enjoy with your family or friends:

In the Village pubs

O'Chaud, Le Chalet de Luigi, George's Wine Bar, the Wood Bear Café and Les Belles Pintes will be taking turns to organise concerts every evening.

When spring comes around

Concerts will be held at the end of the day in front of Manoir Savoie with its spectacular views of Mont Blanc, or under the clock tower.
