

# SKI AND ADMIRE WITHOUT MODERATION

The resort of Arc 1950 le Village is situated right in the heart of Paradiski, one of the world's largest and most beautiful ski areas. The result of linking Les Arcs, Peisey-Vallandry and La Plagne, Paradiski combines quantity and quality. As well as being the second largest ski area on the planet with breathtaking panoramas, Paradiski promises you snow right through the season; it's what we call the snow guarantee!

## 4. The Paradiski area

You will have to breathe deeply to cover the 425 km of slopes between glaciers and forests, the snow parks and the other fun zones in Paradiski. The resort's professionals do all they can to make sure you have a great time whether you are a beginner or an experienced rider... The slopes are wonderfully groomed and you can enjoy skiing at every altitude, from the top of the Aiguille Rouge at 3226m to Villaroger at 1200m.

### **First on the slopes**

Be the first on the freshly-groomed slopes before they open, accompanied by mountain professionals, when you test the "First Tracks" option!

### **It's not only about skiing...**

There are lots of other activities to try near the Village: ski joëring, dog sledding, skidoos, helicopter rides, Snake Gliss descents or the 3-kilometre Rodeo Park toboggan run, snow shoeing or even speed riding...

### **Stay connected!**

Even if we do suggest that our guests switch off while they are in the Village, you don't need to be completely disconnected on the slopes: 60 free WiFi hot spots and the YUGE app are at your disposal to make your Paradiski experience even richer.

### **The Aiguille Rouge is even more beautiful**

At 3226 metres, the Aiguille Rouge footbridge offers a 360° panoramic view of the highest Alpine peaks. There are also information boards that reveal the secrets of the Hauts de Villaroger nature reserve.

### **Architectural coherence and natural light**

New for this winter: the Aiguille Rouge departure station is to be completely redecorated in black, sober and elegant, in the same style as the top and bottom stations of Varet gondola. Large picture windows are also being put in to allow the light right into the station, thrilling the 600 000 visitors who go right up to the highest point of the ski area every year.

### **Spirit 1950 by Evolution 2: the ski school that adapts to all your requirements**

Spirit 1950 By Evolution 2 proposes a very wide range of activities and lessons for all levels and ages, so that you can really make the most of the mountains, supervised by a team of dynamic professionals who speak French, English and Russian.

### **ESF: over 100 instructors and mountain guides to teach you the latest riding techniques**

Whether you are a beginner or an experienced skier or snowboarder, the ESF Arc 1950 welcomes you in the Village centre. A secure area with 5 free lifts and 3 fully-equipped chalets are at the disposal of clients with the ESF Arc 1950.

#### **A run of stars in a starred Village**

Every year, the Village hosts the Les Arcs Film Festival. It has therefore dedicated the slope that runs through the Village to the stars who have participated in this cultural and original event, calling it the "Slope of Fame". You can even discover the fun of "Shopping on Skis" as you follow it through the Village!

#### **New developments close to the Village**

The Vallée de l'Arc, a wide valley with majestic views to Mont Blanc, is a sector of the ski area that everyone can enjoy and that is being improved from one year to the next.

With the new Pré St Esprit chairlift which passes right over the Village and Comborcière chairlift which has been upgraded to a detachable 4-seat chair that is twice as fast and comfortable, it is now easy to get between Arc 1600 with its new Club Med and Arc 1950. The new Le Secret run in the hollow of a lovely valley hidden from view is one of the slopes you really have to try...
