

## SKI AND ADMIRE WITHOUT MODERATION

Arc 1950 Le Village is situated in the heart of Paradiski, one of the world's biggest and best ski areas. The result of joining Les Arcs, Peisey-Vallandry and La Plagne, Paradiski combines quantity and quality. As well as being the second largest ski area on the planet with breathtaking panoramic views, Paradiski also guarantees snow throughout the season. That's what we call a real snow guarantee!

## 4. The Paradiski area

You will need all of your breath to enjoy the 425 km of runs between glaciers and forests, the snow parks and the Paradiski fun zones. Professionals who love their job do all they can to ensure you have fun, whether you are a beginner or an experienced rider...As well as the superbly maintained runs, you can ski at all altitudes: from the top of the Aiguille Rouge at 3226m down to Villaroger at 1200m.

### First on the slopes

You can also experience being the first on the slopes, accompanied by mountain professionals, on a freshly-groomed area and before the runs open with the «First Tracks» option!

### Skiing yes, but that's not all!

There are many other activities awaiting you in the ski area close to the Village: ski joëring, a sled dog outing, skidooing, helicopter rides, snake gliss descents or toboggan rides down the 3-kilometre run in the Rodéo Park, snow shoeing and even speed riding...

### Stay connected!

Lastly, even if we suggest that our guests switch off and relax while in the Village, you don't have to be completely offline on the slopes: there are 60 free WiFi hot spots and our YUGE app at your disposal for an even better Paradiski experience.

## #experience1950

### A run of celebrities in a star-studded Village

Le Village has hosted the Les Arcs Film Festival every year for the past 10 years. For its 10th edition, the Village is dedicating its ski run to the stars who have stayed in the Village over the last decade during this cultural and original event.

### New infrastructures close to the Village

A wide valley offering a superb view of Mont Blanc as you descend, the Vallée de l'Arc is a sector of the ski area that all levels can enjoy and which is improving from one year to the next.

After modernising the high-speed Pré St Esprit chairlift which passes over the Village in 2017, it is now Comborcière that has been upgraded to a 4-seat detachable chairlift. The new lift is twice as fast and more comfortable and will make it easier to travel between Arc 1600 with its new Club Med and Arc 1950. But that's not all: a new run called Le Secret is being created in the hollow of a lovely sheltered valley.

### Aiguille Rouge: an even more beautiful peak

At 3226 metres, a new footbridge offers an exceptional 360° panorama of the highest Alpine peaks and reveals the secrets of the Villaroger Nature Reserve.

The cabins of the Aiguille Rouge cable car are also being redecorated.
