

TRY

shopping on skis

Are you looking for a small gift, or preparing a meal for your friends or a loved one? Do you want to go for a spa and massage? When you stay in Arc 1950 le Village, even going shopping is part of the unique experience of this exceptional resort.

WHAT YOU NEED TO KNOW

Everything here is just a step or two from your residence, on skis or on foot. The twenty or so shops and same number of bars and restaurants meet everyone's needs, from the simplest to the most extravagant. The retailers also contribute to the festive atmosphere by organising daytime and evening events throughout the week.

GO ON... SPOIL YOURSELF!

What could do you more good than a lazy morning or a great day's shopping... with a view of Mont Blanc! Are you looking for warm croissants or chic new ski wear? Are you after a decorative gift or in urgent need of champagne... You can get whatever you need, at any time.

Many of the shops sell top quality local and international items and, of course, your shopping can be delivered to your apartment.

The Village shops sell sports equipment, gifts, souvenirs, food, newspapers and magazines, local specialities and sweets. There is also a creche, a tourist office and the Deep Nature Spa to complete the gastronomic and practical offer.

RETAILERS WHO ARE DEEPLY INVOLVED IN VILLAGE LIFE

You will often see George from George Brown's Wine Bar pick up his guitar to entertain guests in the Village. In fact, all the Arc 1950 le Village shop and restaurant owners agree on one thing: making the resort a fun place to be is their passion. They propose a daily programme of festive musical events, with barbecues and DJ sessions. Then there are key moments throughout the season: celebrating Christmas or New Year with them in Arc 1950 le Village is an unforgettable experience.

NEW FOR WINTER 2018

The Arc 1950 Le Village market

Every Thursday, the retailers that sell fresh produce and local specialities will organise a small market under the clock tower.
